Omolabake Josephine Adesona

DATA ANALYST

Lagos, Nigeria | **adesonaomolabake09@gmail.com** | **www.linkedin.com/in/omolabake-adesona**

Objective

Analytical and detail-oriented aspiring Data Analyst with a background in Industrial Chemistry and hands-on experience building dashboards in Excel and Power BI. Skilled in transforming raw data into actionable insights through visualization, data cleaning, and structured analysis. Currently expanding technical skills in SQL and Python to strengthen data querying and statistical analysis. Passionate about leveraging data to support decision-making and business growth.

Education

Olabisi Onabanjo University, Ago-iwoye   **2021**
Industrial chemistry

Certifications

Data Analysis Training – Analytica Haven   **2025**
Ongoing

Data Analytics Job Simulation - Deloitte   **2025**
Data analysis | Forensic Technology

Technical Skills

Data Analysis & Visualization
- Excel (data cleaning, pivot tables, dashboards, Power Query, formulas)
- Power BI (interactive reports, DAX basics, publishing, storytelling with data)
- SQL (queries, filtering, joins, aggregations)
- Python (Pandas, Matplotlib – beginner level)

Projects

- **Performance Dashboard** – Designed an Excel/Power BI dashboard to track key performance metrics. Focused on structuring raw data for clarity, applying the right visualizations, and providing actionable insights.

- **Sales Dashboard** – Built an interactive sales performance dashboard. Improved data organization, identified trends, and communicated insights through clean and professional design.
